

PRASE AYODELE

SOFTWARE ENGINEER

SUMMARY

Diligent Software Engineer with 4+ years in commercial application and software development. Eager to build innovative, cutting-edge and productive tools for impressive suite of clients and global reach.

WORK EXPERIENCE

FULLSTACK ENGINEER

June 2023 - Present | LeadInFuse.

- Worked closely with the sales team to understand business requirements and translate them into effective and visually appealing frontend solutions.
- Implemented and maintained A/B testing strategies to optimize website elements, resulting in about 20% improvement in conversion rates.
- Conducted regular code reviews to maintain code quality, consistency, and adherence to industry best practices.
- Organized brainstorming sessions and cross-functional team meetings to develop ideas for improving the overall user experience and website functionality.
- Implemented Micro-frontend Architecture to deliver Microservices to ensure optimal software performance.

FRONTEND DEVELOPER

January 2023 - May 2023 | Revent Technologies.

- Developed Payment dashboards for Bank Operators to ease and secure transactions and payment processes of customers.
- Testing, site reliability and routine maintenance of clients' sites to improve performance.
- Implemented Agile methodology to streamline project workflows, fostering cross-functional collaboration, iterative development, and continuous improvement for enhanced project outcomes.
